

Project summary

New Bendigo Hospital

Victoria

The Bendigo Hospital is one of the most sustainable and technically advanced regional hospitals in Australia, featuring digital medical records, a sophisticated nurse call system, real time location for equipment, customised audio and visual screens with live stream capability, and bedside entertainment units that allow patients to order meals and view their healthcare information.

The massive state-of-the-art redevelopment was built in two stages. The first stage features 372 inpatient beds, 72 same-day beds, 11 new operating theatres, and an integrated cancer centre. There is also a 25-bed maternity unit and an 80-bed mental health unit, along with a childcare centre and affordable accommodation for visitors.

The second stage of the hospital redevelopment project was completed in June 2018, and features a multi-deck carpark, helipad, short-stay accommodation units, conference facility and retail outlets. In its first month, 14 helicopters landed on the new helipad to transfer critical patients.

Supplied by **esco**
industries

- Alphamax Recessed Services Panels
- Beta Recessed Services Panels
- Line Isolation & Overload Monitors
- Equipotential earthing
- Medical Gas Outlets
- Medical Gas Isolation Control Valve Boxes
- MediTek Switchgear & Accessories

Region	Victoria
Project Name	New Bendigo Hospital
Market Segment	Hospital
Project Value	\$630m
Client	Victoria State Government
Architect	Silver Thomas Hanley and Bates Smart
Builder	Lendlease
Consultant - Electrical	NDY
Consultant - Mechanical	NDY
Contractor - Electrical	Nilsen VIC
Completed	2016
