

Project Summary

Royston Hospital - Recovery

New Zealand

The Royston Hospital is situated in the city of Hastings and is the only private hospital in the area. As one of two hospitals serving the Hawke's Bay region, it caters to the medical needs of around 160,000 residents. Originally built in 1931, the hospital underwent significant upgrades in 2021. With five operating theatres and one endoscopy procedure room, the facility has now been expanded to include two more operating theatres and new areas for patient admission and recovery.
