

Project Summary

Barwon Health North

Victoria

Image: <https://www.kane.com.au/project/barwon-health-north>

The Barwon Health North facility offers an innovative and integrated approach to ambulatory care services, catering to a variety of patients.

Barwon Health provides specialist care, women's and children's health clinics, non-emergency illness and injury treatments, including renal dialysis, after-hours care, and specialist outpatient services. Clinical support services such as medical imaging, pathology, and a pharmacy are also available.

The urgent care center at Barwon Health North can reduce the demand for emergency services at University Hospital Geelong. Additionally, medical imaging facilities, including x-ray and CT scanners, a pathology center with collection and analysis rooms, and a pharmacy are also available at Barwon Health North.
