Project Summary

North Shore Private Hospital
Pre-Op & Operating Theatres 19 & 20

New South Wales

Image: https://www.northshoreprivate.com.au/

As part of the upgrade project at North Shore Private Hospital, Theatre 19 and 20 underwent a significant upgrade. The hospital installed a combination of Alphamax and Alpha Flush Mounted MSP systems to match the existing MSPs in certain areas. Additionally, Max50 Medical Services Ducts were installed in the Recovery room, where a surface-mounted solution was required. These upgrades were essential in ensuring that the Operating Theatres meet the latest safety standards and provide optimal conditions for medical procedures.
