

Project Summary

Royal North Shore Hospital CSB

New South Wales

Image: © State of New South Wales NSW Ministry of Health. For current information go to www.health.nsw.gov.au.

The Clinical Services Building (CSB) at Royal North Shore Hospital was constructed alongside the PPP redevelopment to integrate better women's, children's, burns, and mental health services within the acute services building.

Esco Industries collaborated closely with the user group to design 15 Sigma Duo Pendants and 9 Sigma Elite Column Pendants for the NICU, meeting the specific requirements for treating newborn babies.

The project has delivered 40 maternity beds, 32 neonatal Intensive Care Unit cots, 12 burns beds, and 24 paediatric beds. In addition, 32 beds have been provided for the Mental Health Inpatients Unit, out of which 12 are allocated for the high-dependency unit. Furthermore, the acute services building on Level 9 has been equipped with 60 additional beds, while the Douglas Building has been refurbished to accommodate displaced Level 9 acute services. Finally, an extra 60 beds have been added to the CSB.

Supplied by **esco**
industries

- Medical Services Pendants
- Alphamax Recessed Services Panels
- Medical Gas Isolation Control Valve Boxes
- Medical Gas Outlets
- MediTek Switchgear & Accessories

Region	New South Wales
Project Name	Royal North Shore Hospital CSB
Market Segment	Hospital
Project Value	\$160M
Client	Health Infrastructure NSW
Builder	Multiplex
Contractor - Electrical	Star Electrical
Contractor - Medical Gas	Hoslab
Completion	2014
